A CLASSIC STATEMENT OF ELEGANCE, BEAUTY AND TRADITION

The elegance, beauty and tradition of Thassos White Marble, which has its beginnings on a small island in the Northern Aegean Sea, make these tiles a superb selection. This stone has been quarried and used as a building material since ancient times for statues of art, buildings, monuments and interiors of homes throughout the centuries. This floor and wall covering, with its inherent beauty and purity of white combined with tiles, mosaics, decorative trims and slabs for countertops, walls and stairs, make this a natural choice for yesterday's, today's and tomorrow's elegant residences.
