leathered stone

Our Leathered Stone Tile Collection evokes an authentic, natural feel with its weathered texture. These marble tiles have a more informal, intimate look than classic polished white marble.

This collection brings an ancient feel to a modern space. Its unique finish is available in three of our most popular marble shades: Skyline, Diana Royal, and Fantasy White.

The process of “leathering” a stone creates a rich texture and enhances the slip resistance in flooring applications. Therefore, this collection is ideal for indoor flooring, especially in wet areas like showers. It also ensures a safer environment for households with children or elderly inhabitants, where there’s a greater risk of slipping.

The Leathered Stone Tile Collection is suitable for residential and commercial floors, walls, and wet areas.

Usage

- Residential Interior Floors / Walls
- Commercial Interior Floors / Walls
- Shower / Walls

V2 - Slight Variation: Clearly distinguishable differences in texture and/or pattern within similar colors.
